Topics Discussed:

We tried to first seek to understand the activity diagram so we could continue with the other ones.

What we thought was most important was to first understand the basic diagrams which were the activity diagram so we could then continue with the other ones.

After that what was needed for our group to proceed was that three members of our group would continue with doing the sketches and 2 others would continue with building the diagrams in draw.io

Besides that everyone would continue with what was divided in the previous meeting, which is also specified in the meeting report.

Decisions Made:

1. We will continue with the activity diagrams first altogether
2. We will have another meeting to discuss related to the ideas of the diagrams
3. Everyone will continue working with their individual diagrams

Tasks Assigned:

1. Greta Marina and Kristiana will work on the activity diagrams in order to draw them and also improve them
2. Erjona and Pavlina will work on building the diagrams in draw.io
3. Everyone will also work on their individual diagrams
