

MEETING REPORT

Team Name: PAUS

Date of Meeting: 13/04/2020

Start Time: 18:00 End Time: 19:00 Meeting Location: Online

Members Present:

**Erjona Gosturani,
Greta Meckaj
Kristiana Cukaj
Marina Collaku
Pavlina Hysko**

Members Absent: None

Topics Discussed:

From the interview with the economist of the company Marina found out that they really need a program that can come in use a system where he can look at all the materials used in order to keep track of the inventory in hand.

After talking we also found out that every employee first goes to the office and then they have transportation that drives them to the location and that way the economist can keep track of their clock ins and out.

Also everyone came up with their own sketches and the ideas. After discussing everyone's idea we to a final that we think would be most suitable.

Another think that was up for discussion were the technologies that we will use for the application. Considering everyone's performance we came to a result that it would be best for us and more suitable to use something we are really good at.

Decisions Made:

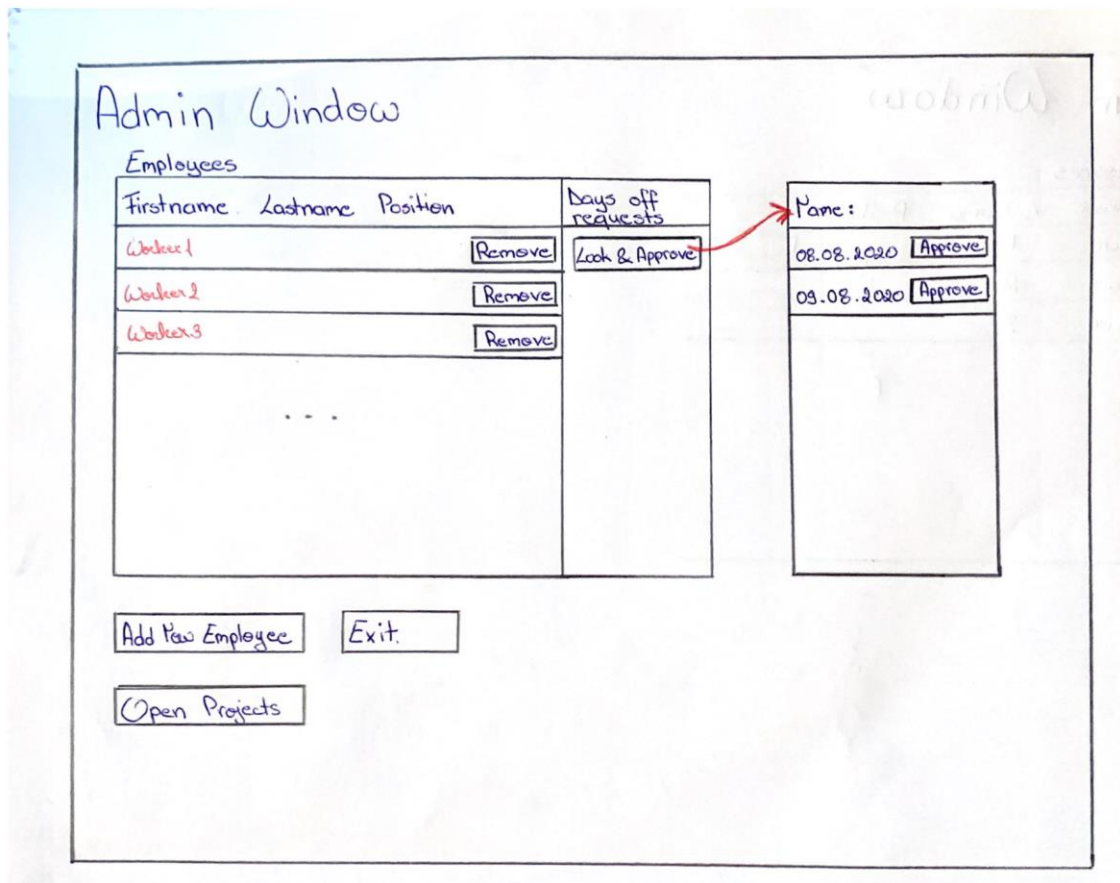

1. Technologies and libraries that we will use in the project will be JavaFX/MySQL database
2. One of the added functionalities will be tracking the inventory of the company
3. Everyone will keep watching tutorials about the technologies that will use
4. The sketches about the economist and the admin page and we will also try to finish the other sketches as well.

Workers in and out hours	Date	In	Out

Date	Materials	Amount

Exit

Tasks Assigned:

1. We will keep working on the other sketches of the other pages
2. We will try to use sketching tool for the sketches in order to have a more clean view of the design
3. Keep looking at tutorials for JavaFX and MySQL
4. We will keep working on the Requirement Specification document.
5. Everyone will take of their Personal Log on Github accounts.

Time, Place, and Agenda for Next Meeting:

17:30-19:00 on April 18, 2020 we will have an online meeting.
