

Economist Window

Button to send workers from A to Z or Z to A

Select a date (It will be shown as a calendar to select the date)

Workers <input checked="" type="checkbox"/>	Date	In	Days off request
Name 1	<input type="text"/>	<input type="button" value="Clock in"/>	<input type="button" value="Request"/>
Name 2	<input type="text"/>	<input type="button" value="Clock in"/>	<input type="button" value="Request"/>
Name 3	<input type="text"/>	<input type="button" value="Clock in"/>	<input type="button" value="Request"/>
...

Once you select this button it will show that the worker was clocked in for the chosen date

Economist will make the request by clicking the button and after clicking it will show "Requested". This will be shown at admin page for approval
